Objective

Aspiring Artificial Intelligence and Data Science student seeking an internship to apply knowledge in machine learning, data structures, and software development while contributing to innovative solutions.

Education

Bachelor of Engineering (B.E.) in Artificial Intelligence and Data Science

Global Academy of Technology, Bangalore, Karnataka   **Expected Graduation: 2026**

GPA: 9.5/10

Relevant Coursework: Machine Learning, Data Structures in C, Python for Data Science, Introduction to Cybersecurity

Skills

Programming Languages: Python, C, Java

Tools and Technologies: MySQL, MongoDB, Jupyter Notebook, Linux Systems (Ubuntu, Kali Linux)

Other Skills: Data Structures, Algorithms

Projects

Sign Language Translation

- Developed a model to convert sign language gestures into English text in real-time.
- **Technologies Used:** Python, OpenCV, Random Forest Classifier
- **Outcome:** Achieved real-time translation and improved understanding of computer vision concepts.

To-Do List Web App

- Designed and implemented a fully functional To-Do List web application.
- **Technologies Used:** HTML, CSS, JavaScript
- **Outcome:** Enhanced knowledge of web development and front-end technologies.

Face Recognition Attendance System

- Built a face recognition-based attendance system that automates student attendance.
- **Technologies Used:** Python, OpenCV, Excel
- **Outcome:** Improved image processing skills and automated data handling using Excel.

Certifications and Courses

- **Cisco:** Introduction to Cybersecurity
- **Junior Cyber Analyst Path:** In Progress
- **Python for Data Science**
- **Data Science for Engineers**

Extracurricular Activities

- Core Member, Coding Club, Global Academy of Technology
- Participant, Hackathon organized by the CSE Department, Global Academy of Technology

Soft Skills

- Problem-Solving
- Teamwork and Collaboration
- Communication
- Adaptability
